SUBJECT: Inquiry for Ion Exchange Resin

Date: August '54

PLACE ACQUIRED: --

DATE ACQUIRED: 29 Jul 54

DATE OF INFO: 29 Jul 54

P. 178
1-4

25X1X6

1. My firm received an inquiry for 40 tons of a relatively new fine mesh cation exchange resin. This resin is used for thorium purification, and I suspect also for isotope separation in a more important atomic energy process.

25X1X6

2. The inquiry was received through the [REDACTED] It is for an exceptionally unusual amount of this resin. To date, only eight thousand pounds have been ordered for US atomic energy projects with the immediate prospect of only 10 thousand pounds more.
